

CONSECUTIVE SUBJECTS

This translation of the German original is for information purposes only. In the event of differences between the German language version and any translation thereof, the German language version will prevail. According to the admission regulations for the Master's programmes of the Leuphana Graduate School, applicants must prove their special suitability for the chosen study program by a Bachelor's degree or a degree at least equivalent to it. The equivalence of foreign degrees is determined according to the evaluation proposals of the Central Office for Foreign Education at the Permanent Secretariat of the Standing Conference of the Ministers of Education and Cultural Affairs (» www.anabin.kmk.org). One of the admission requirements is proof that the chosen Master's degree will deepen the previous degree in the same subject area (consecutiveness). You can prove the consecutive nature of your degree by a certified transcript of records or a corresponding certificate.

For more information on the application procedure for international applicants see » www.leuphana.de/master-apply

EDUCATION

Programme	Disciplines	Requirements
Social Work Research	Childhood education Educational science Law Political science Psychology Social pedagogy Social science Social work Sociology	Proof of 60 ECTS in relevant modules from the subjects/disciplines listed Furthermore , at least 15 ECTS in the field of quantitative and/or qualitative empirical research methods

GOVERNANCE & LAW

Programme	Disciplines	Requirements
